

E.M. TECHNOLOGIES

Brand Identity System

"Built on roots. Wired for the future."

Your single source of truth for how E.M. Technologies looks, speaks, and shows up in the world. Follow it consistently and your brand compounds — richer every season.

01 — BRAND STORY

Foundation & Values

What the Logo Says

• Circuit board rising from a bowl	Indigenous knowledge + modern technology growing from the same source
• Four-petal flower	Four directions, wholeness, and community-rooted values
• Stair-step pattern	Ancestral architecture, methodical progress, and earned elevation
• Circuit nodes	Connectivity, precision, and modern infrastructure

Core Brand Pillars

ROOTED	We know where we come from. That's not a limitation — it's an advantage.
PRECISE	We build things that work. No hype, no fluff.
CREDIBLE	Our portfolio speaks. Let the work lead.
FORWARD	We solve today's problems with tomorrow's tools.

02 — COLOR SYSTEM

Brand Color Palette

Mono	0.8rem/13px	v1.0 — 2025
------	-------------	-------------

04 — LOGO SYSTEM

Logo Usage

Logo Versions

		
Light (Primary) Default — cream, sand, white	Dark Background Use light logo version	Terra Background White version only

Clear Space

Maintain clear space equal to the height of the "E" in the wordmark on all four sides. Never crowd the mark.

✓ DO

- Use on approved backgrounds only
- Maintain original proportions
- Use vector files for print
- Keep clear space on all sides
- Pair wordmark with the mark
- Apply on high-contrast backgrounds

✗ DON'T

- Stretch, squash, or rotate
- Add drop shadows or effects
- Place on busy backgrounds
- Recolor individual elements
- Use on low-contrast backgrounds
- Recreate or redraw any element

05 — SPACING & LAYOUT

Spacing System

4px — xs		Icon padding, tight label gaps
8px — sm		Between badges and text, inline elements
16px — md		Paragraph gaps, button vertical padding
24px — lg		Card padding, section element gaps
40px — xl		Section padding, grid gutters
64px — 2xl		Section top/bottom, hero spacing
80px+ — 3xl		Page-level breathing room

MAX WIDTH	1200px	Center-aligned; full-bleed backgrounds allowed
PAGE MARGIN	40px desktop / 20px mobile	Consistent horizontal breathing room
GRID	12-column, 24px gap	CSS Grid preferred; Flexbox for inline elements
BORDER RADIUS	4px buttons / 6–8px cards	Consistent rounding across all UI

06 — UI COMPONENTS

Component Library

Buttons

Start a Project	PRIMARY Background: #B85C2A • DM Sans 600 • Padding: 12px 28px • Radius: 4px
Learn More	SECONDARY Border: 2px solid Terra • Hover: fills Terra • Same sizing as primary
View Portfolio	DARK Background: #1A1A18 • Text: Sand • Used for dark-section CTAs

Badges & Tags

Featured	Case Study	Award	Radius: 2px • DM Sans Bold • All caps • Letter-spacing: 0.10em
---------------------	-----------------------	------------------	---

Navigation Sample

E.M. Technologies	Work • Services • About • Contact
------------------------------	--

Background: Obsidian • Brand: Playfair Display • Links: DM Sans 500, uppercase • Bottom border: 2px Terra

07 — VOICE & TONE

Brand Voice

WHAT WE SOUND LIKE

- Direct: We say what we mean. Short sentences. Active voice.
- Earned confidence: We let the work speak and stand behind it firmly.
- Community-aware: Tech serves people, not the reverse.
- No jargon: Tech terms only when necessary, always explained.
- Warm but firm: Approachable, not casual. Professional, not cold.

WHAT WE DON'T SOUND LIKE

- ✗ Corporate filler: "leveraging synergies," "best-in-class solutions"
- ✗ Overpromising: "We'll transform your business overnight"
- ✗ Hollow tech buzzwords without substance
- ✗ Apologetic language — never "we try to" or "we hope to"
- ✗ Dismissive of non-technical clients or small communities

COPY EXAMPLES — BEFORE & AFTER

✗ BEFORE

"We leverage cutting-edge technologies to deliver innovative digital transformation solutions."

✓ AFTER

"We build websites, apps, and digital systems that work — designed for your community, maintained for the long haul."

✗ BEFORE

"Our team hopes to provide value-added services that may potentially improve your online presence."

✓ AFTER

"We build your digital presence from the ground up — and we stand behind every line of code."

Recommended Structure

01	Home Hero with value statement + 1 CTA. Services overview. 2–3 featured project cards. Trust indicators. Footer. Hero • CTA Button • Project Cards • Testimonial
02	Work / Portfolio Filterable project grid. Each card: title, tag, description, image. Clicking opens case study. Your credibility engine — must be strong. Filter Nav • Grid • Case Study • Results
03	Services What you build and for whom. Problem it solves, how you deliver. End every service with a CTA. Service Cards • Process • FAQ • CTA
04	About Your story, roots, your why. Photo. Values. What makes E.M. Technologies different from any other tech shop. Story • Values • Photo • Mission
05	Contact Simple form: name, email, project type, budget, message. Response time expectation. Clear path to start a conversation. Form • Email • Response Time

TECHNICAL STANDARDS

Mobile-first	60%+ of clients visit on mobile. Design mobile first, always.
Performance	Target 90+ Lighthouse score. Slow sites lose work.
Accessibility	WCAG 2.1 AA minimum. All color combos meet 4.5:1 contrast ratio.
SEO	Proper H1–H3 structure, meta descriptions, Open Graph tags.
Analytics	Install from day one. Know your audience and what they do.

Imagery

Real over stock. Warm tones that echo the brand palette. People + tech.

09 — DEVIL'S ADVOCATE

Blind Spots to Watch

■ Brand Without Proof

A great brand guide means nothing if your portfolio is thin. Fill that Work section with real, documented results first. The brand amplifies the work — it cannot replace it.

■ Consistency Drift

The #1 brand killer. One off-brand social post, one wrong font, one logo on a busy background — it chips away at trust. Treat this guide as law, not a suggestion.

■ Playing It Too Safe

This brand has real visual identity and cultural depth. Don't dilute it trying to look like every other tech shop. Lean into what makes you distinctly E.M. Technologies. Sameness is invisible.

■ Neglecting Mobile

General tech clients often evaluate vendors on their phone first. If your site isn't tight on mobile, you lose the contract before you ever send a proposal. Design mobile first. Always.

■ No Portfolio = No Credibility

Get 3–5 strong documented case studies live before driving traffic. Each one should show: the problem, your approach, the result with numbers. Most important marketing asset you have.

■ Forgetting the Long Game

Brands compound over time like good soil. The discipline you show in years 1–2 determines what you're worth in years 5–10. Stay the course even when it's tempting to cut corners.

Forward Perspective

The technology landscape shifts fast. This guide is a living document — revisit it every 12–18 months. But your core identity? The roots, the precision, the community-first values — those don't change. Let those be your anchor while everything else evolves around them.
